23 July 2008

Dear Stephen,

Thank you!

We are delighted with the efficiency of our working relationship with the Papillon Foundation. The 21 personal computers we had installed at our Foundation School and then the additional 50 at Sparrow Combined are all functioning wonderfully. Our computer skills educators are thrilled with the progress made.

As soon as the educators have completed their Microsoft courses and examinations, our learners will greatly benefit from gaining accredited qualifications through our centre. This will greatly enhance their potential to secure employment on completion of their time with Sparrow Combined.

We appreciate the Papillon Foundation's involvement at Sparrow Schools and look forward to continuing the friendship!

Again, thank you!

Jackie
